

Energy performance certificate (EPC)

29 Colvil Street BELFAST BT4 1PS	Energy rating	Valid until: 18 June 2034
	D	Certificate number: 2900-7111-0822-3395-3643

Property type Mid-terrace house

Total floor area 84 square metres

Energy rating and score

This property's energy rating is D. It has the potential to be C.

[See how to improve this property's energy efficiency.](#)

Score	Energy rating	Current	Potential
92+	A		
81-91	B		
69-80	C		73 C
55-68	D	68 D	
39-54	E		
21-38	F		
1-20	G		

The graph shows this property's current and potential energy rating.

Properties get a rating from A (best) to G (worst) and a score. The better the rating and score, the lower your energy bills are likely to be.

For properties in Northern Ireland:

- the average energy rating is D
- the average energy score is 60

Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

Energy performance certificate (EPC) – Find an energy certificate – GOV.UK			
6/19/24, 3:38 PM	Roof	Pitched, 100 mm loft insulation	Average
	Roof	Roof room(s), insulated	Average
	Window	Fully double glazed	Average
	Main heating	Boiler and radiators, mains gas	Good
	Main heating control	Programmer, room thermostat and TRVs	Good
	Hot water	From main system, no cylinder thermostat	Average
	Lighting	Low energy lighting in all fixed outlets	Very good
	Floor	Solid, no insulation (assumed)	N/A
	Floor	Solid, insulated (assumed)	N/A
	Secondary heating	None	N/A

Primary energy use

The primary energy use for this property per year is 228 kilowatt hours per square metre (kWh/m²).

▶ [About primary energy use](#)

How this affects your energy bills

An average household would need to spend **£1,321 per year on heating, hot water and lighting** in this property. These costs usually make up the majority of your energy bills.

You could **save £209 per year** if you complete the suggested steps for improving this property's energy rating.

This is **based on average costs in 2024** when this EPC was created. People living at the property may use different amounts of energy for heating, hot water and lighting.

Impact on the environment

This property's environmental impact rating is D. It has the potential to be C.

Properties get a rating from A (best) to G (worst) on how much carbon dioxide (CO₂) they produce each year.

Carbon emissions

An average household produces	6 tonnes of CO ₂
This property produces	3.4 tonnes of CO ₂
This property's potential production	2.8 tonnes of CO ₂

You could improve this property's CO₂ emissions by making the suggested changes. This will help to protect the environment.

These ratings are based on assumptions about average occupancy and energy use. People living at the property may use different amounts of energy.

Step 1: Hot water cylinder insulation

Increase hot water cylinder insulation

Typical installation cost £15 - £30

Typical yearly saving £46

Potential rating after completing step 1

69 C

Step 2: Hot water cylinder thermostat

Typical installation cost £200 - £400

Typical yearly saving £89

Potential rating after completing steps 1 and 2

71 C

Step 3: Room-in-roof insulation

Typical installation cost £1,500 - £2,700

Typical yearly saving £72

Potential rating after completing steps 1 to 3

73 C

Step 4: Solar water heating

Typical installation cost £4,000 - £6,000

Typical yearly saving £81

Potential rating after completing steps 1 to 4

74 C

Step 5: Internal or external wall insulation

Typical installation cost £4,000 - £14,000

Typical yearly saving £74

Potential rating after completing steps 1 to 5

76 C

Step 6: Solar photovoltaic panels, 2.5 kWp

Typical installation cost £3,500 - £5,500

Help paying for energy improvements

You might be able to get a grant from the [Boiler Upgrade Scheme \(https://www.gov.uk/apply-boiler-upgrade-scheme\)](https://www.gov.uk/apply-boiler-upgrade-scheme). This will help you buy a more efficient, low carbon heating system for this property.

Who to contact about this certificate

Contacting the assessor

If you're unhappy about your property's energy assessment or certificate, you can complain to the assessor who created it.

Assessor's name	Patricia Best
Telephone	07788108883
Email	patricia@bestpropertysurveys.com

Contacting the accreditation scheme

If you're still unhappy after contacting the assessor, you should contact the assessor's accreditation scheme.

Accreditation scheme	Elmhurst Energy Systems Ltd
Assessor's ID	EES/004738
Telephone	01455 883 250
Email	enquiries@elmhurstenergy.co.uk

About this assessment

Assessor's declaration	No related party
Date of assessment	19 June 2024
Date of certificate	19 June 2024
Type of assessment	▶ RdSAP
